

HIGHWAY MATERIALS

Part 3

Aggregate

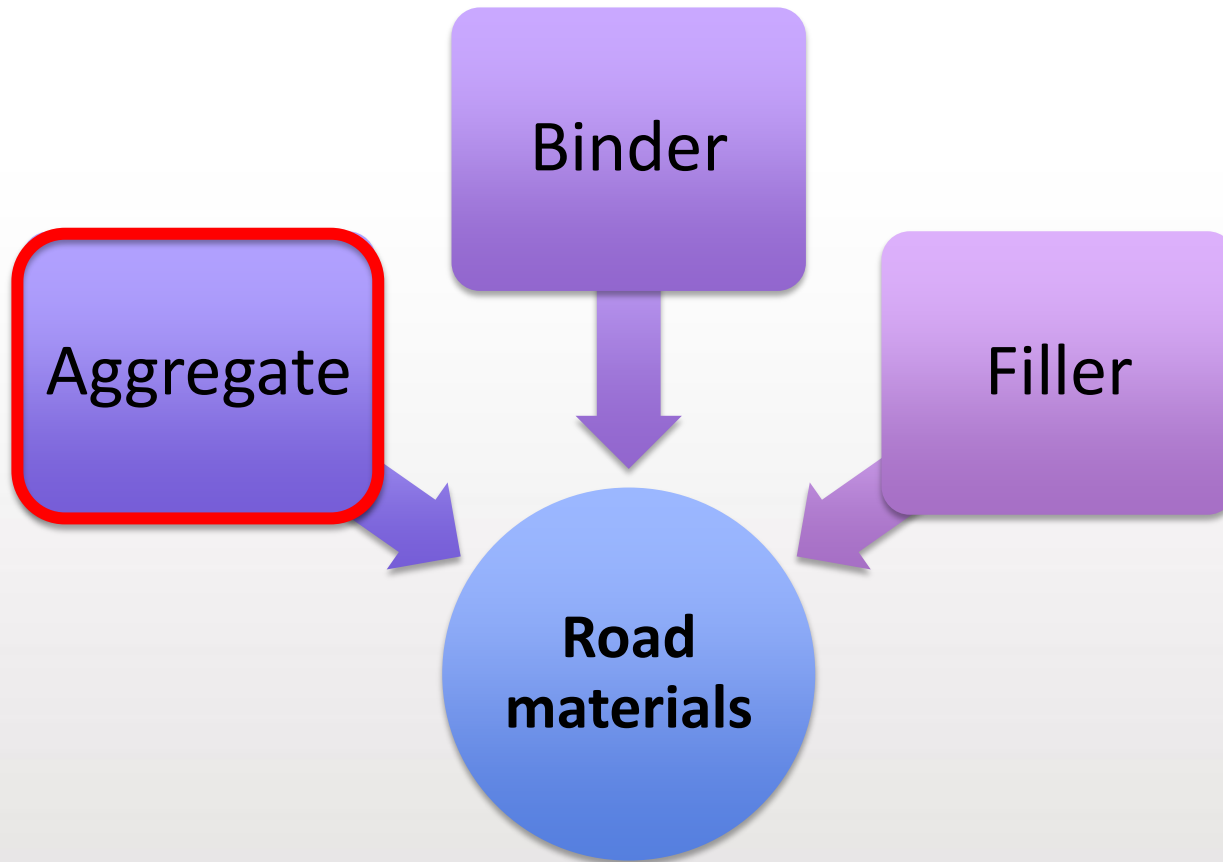

Mr Che Ros Ismail | Dr Norhidayah Abdul Hassan

Faculty of Civil Engineering

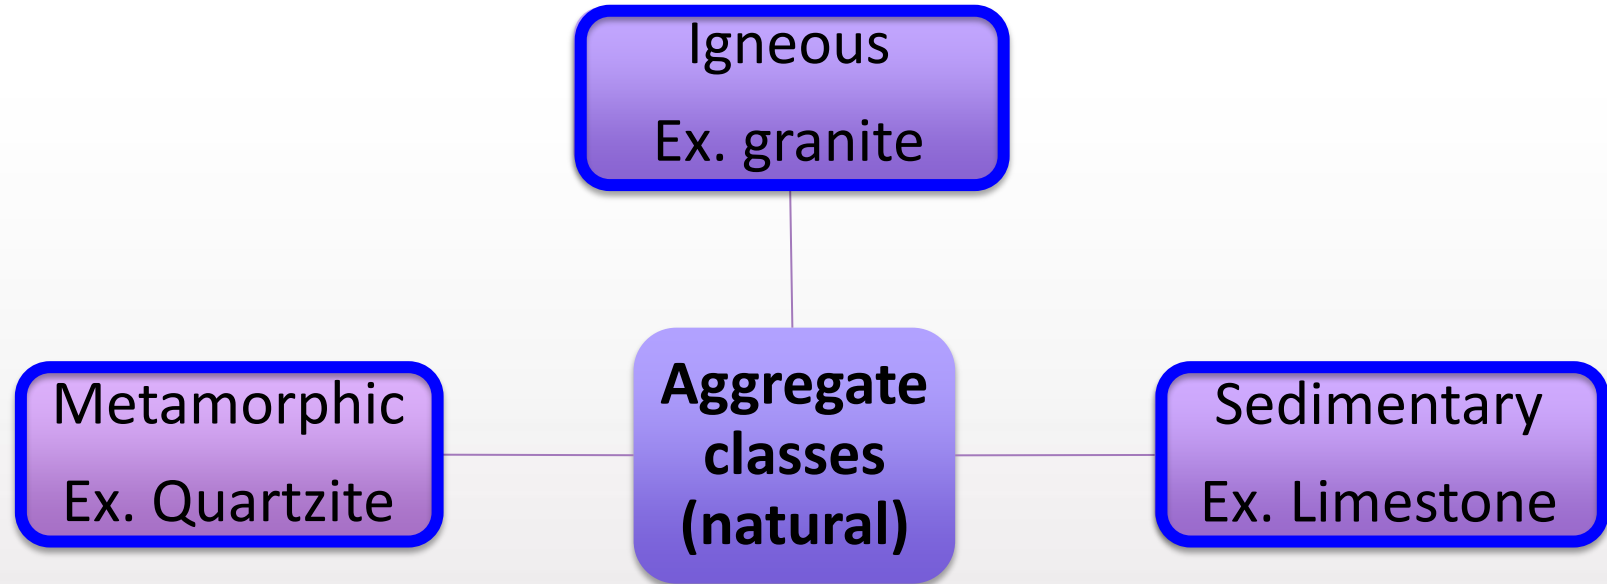

Content

- ✓ Origin and Production
- ✓ Aggregate Size
- ✓ Aggregate Physical Properties
- ✓ Tests on Aggregate Properties

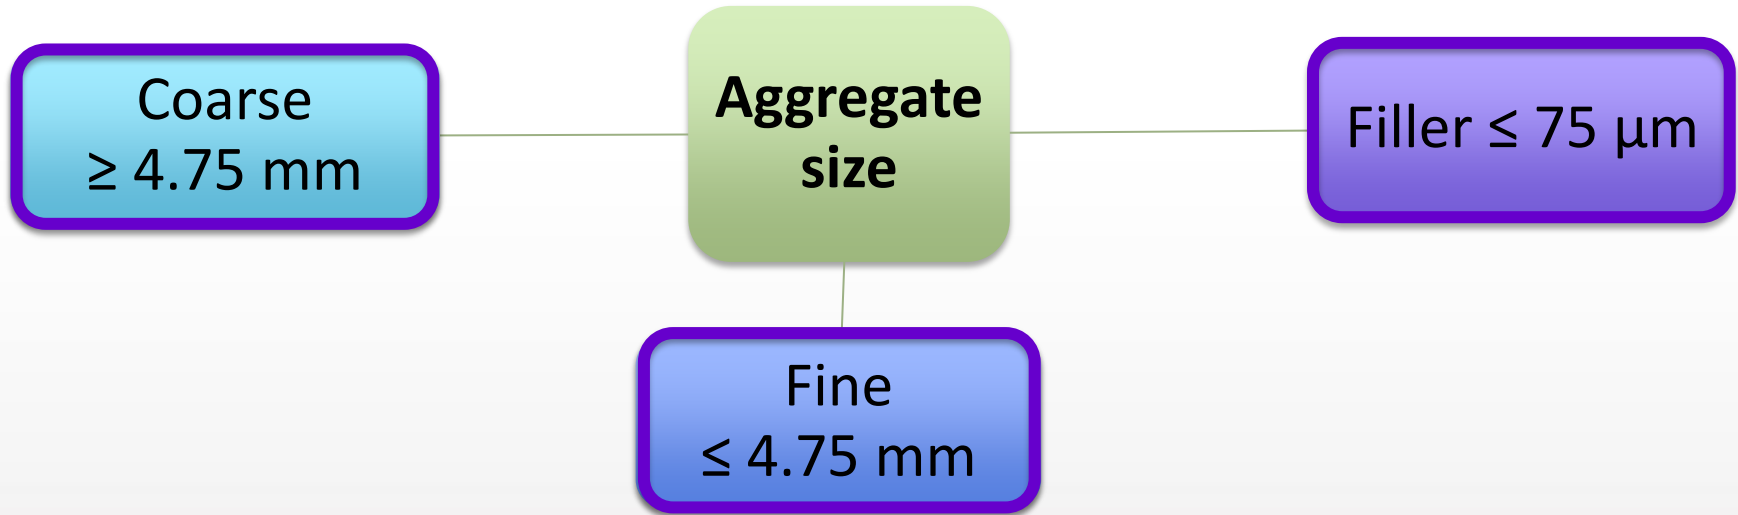

✓ **Natural or artificial**

✓ **Artificial aggregate – slag waste from ore to produce steel**

- ✓ **Nominal maximum aggregate size:** “one sieve larger than the first sieve to retain more than 10% of the materials”
- ✓ **Maximum size:** “one sieve larger than the nominal maximum size”

Aggregate Crushing Value & Ten Percent Fine Value

Aggregate Impact Value

Loss Angeles Abrasion Value

Soundness

Flakiness and Elongation Index

Specific Gravity and Water Absorption

Coating and Stripping

**Polished Stone Value
(Pendulum test)**

Sieve

Thank You
