SGG 3643 (Computer Programming III)

Exercise #04: HTML & CSS (10%)

Please choose an appropriate compiler and begin writing the HTML / CSS codes for the following items below:

1. By using an image, create a hyperlink to a new target document.
2. Ordered list with four list items.
3. A paragraph with customized right and left margin.
4. A simple table with two rows and four columns.
5. Text color and font family for the <p> tag.
6. Frame with four windows; two rows (top & bottom position) and two columns (left & right).
7. A static background logo.
8. Text color and font family for the <h1> tag.
9. Olympic logo using overlapping text technique in CSS.
10. Webpage breadcrumb for three pages.
