

ASSIGNMENT #2 (10%)

SGG4563 Advanced Database System Paper Critique (Individual Report)

Objectives of the first assignment:

- § To familiarize students with technical writing.
- § To encourage students with technical thinking and critiques.
- § To enhance knowledge on databases and related areas.

Assignment Synopsis:

1. You are required to read and critique the given article "What do you think GIS in the Cloud will be like?" by Jeff Thurston (source: <http://vector1media.com/dialog/perspectives/23859-what-do-you-think-gis-in-the-cloud-will-be-like.html>)
2. Your report should include:
 - a. your critiques / opinion based on the article's content
 - b. relate the article with current or future GIS or non-GIS database development / deployment

Report format:

- § Your name, MyKad & Matric number.
- § Title of the article.
- § Summary of the article.
- § Your critiques on the article (see 2a).
- § Your suggestion on how database implementation can be benefited in GIS for Cloud environment (see 2b).

Note:

- § Upload your document (*.doc / *.docx / *.pdf) to the Upload Tool in eLearning.
- § All comments, critiques and suggestions must be supported with examples, diagrams, etc.
